

# REASONS FOR DELAY AND DISABILITIES

MOBILE APP

# NEURO-DEVELOPMENTAL DISABILITIES

- Neuro means brain.
- Disabilities limits functioning of an individual in day to day functioning.
- “**Neuro**” means brain so these conditions have impact on child brain during process of birth, during period of pregnancy or may due to accident, injury, trauma or disorder after birth thus baby is not able to attain growth what is expected of his/her age.

# REASONS

- Pre-natal Stage: Period of conception by mother.
  - Natal Stage: Period of birth process.
  - Post-natal Stage: Period after birth.
- 
- There could be number of factors affecting child development at any of the stage.
